### Pancreatic Cancer Scholarship

#### About

About 53,000 Americans are diagnosed with pancreatic cancer every year, and the disease takes nearly 42,000 lives annually. It is the third deadliest form of cancer in the country, right above breast cancer. Unfortunately, it is one of the few cancers for which survival rates have not improved in the last 40 years, and it is expected to be the second leading cause of cancer related death by 2030.

At Boxercraft, we have felt the effects of pancreatic cancer on a personal level. One of our employees recently received a diagnosis, and we want to support him, as well as other families across the country, that have been affected by pancreatic cancer. Our hope is that the Fight Against Pancreatic Cancer Scholarship will both raise awareness and attention to those fighting against the disease, as well as ease the financial burden of college for these families while they are going through this difficult time.

#### Eligibility

In order to qualify for the Boxercraft Fight Against Pancreatic Cancer Scholarship, a few recommendations must be met. The scholarship is open to students who have:
