**Bachelor of Music: Elective Studies in an Outside Field** is designed for those students who desire a general music program while at the same time pursuing a secondary interest outside of the School of Music

The block of **21 credits** in the outside field must be approved by the chairperson of the department in which the student has the secondary interest. In many cases, these credits may be the same as those courses that comprise a minor in that field. Although the student may apply for minor status, it is NOT required. Since most minor areas are 15-18 credits, additional courses must be agreed upon in order to bring the total to 21 credits. Any pre-requisites and majors-only course approvals should be discussed.
